### NEW INDUSTRIAL PLANT, DZERZHINSK, USSR

A new industrial plant is under construction near the chemical industrial complex at Dzerzhinsk, USSR (Figure 1). This plant (56-17-00N 43-36-00E) is located 1.5 nautical miles north of the Dzerzhinsk Chemical Plant Rulon 148. The new site is road and rail served.

The plant area, measuring approximately 2,900 by 1,660 feet, is secured by a wall (Figure 2). Within the walled area construction activity is evident. Six small buildings and one

large building, measuring approximately 610 by 500 feet, appear to be complete. Excavations for building foundations and trenching for underground pipelines are also observed.

A power line which enters the site at its southeast corner

An underground pipeline under construction also enters the site at the southeast corner. This new pipeline will lead to the
